🌐 Adita Mutsuddi

🚩 Bangladeshi

📅 12th March 2003

Passionate Computer Science student from International Islamic University chittagong. I love building web apps and learning new technologies. Currently open to internships and freelance projects.

COURSES

YUBA UNNAION SANGSTHA

Ministry of Social Welfare Affiliated by Social Welfare Directorate

07/2023 – 12/2023

Chittagong, Bangladesh

Earned a Diploma in Computer Science from Yuba Unnan Sangstha, an organization affiliated with the Ministry of Social Welfare, Government of Bangladesh. The program covered essential IT skills including MS Office (Word, Excel, Access, PowerPoint), Hardware Troubleshooting, Data Entry, and Basic Internet. Achieved a Very Good (A+) grade upon completion in January 2024.

SKILLS

HTML, CSS and JavaScript

Skilled in building responsive and modern web interfaces using **HTML**, **CSS**, and **Tailwind CSS**.

Proficient in **Java** for backend logic and problem-solving. Experienced in creating clean, maintainable code and collaborative development.

PROJECTS

Security System

04/2025 – 07/2025

A simple security system interface built with HTML, CSS, and JavaScript — featuring user interaction and basic access control logic.

Blood Donation System

03/2025 – 07/2025

A beginner blood donation web project built with HTML, CSS, and JavaScript — focusing on clean layout, basic styling, and simple interactivity.

Gourmet Gallery

03/2026 – 04/2026

A bakery website built with Tailwind CSS — showcasing beautiful food presentation with a clean, responsive, and appetizing design.

FlavorForge

03/2026 – 04/2026

A sauce brand website built with Tailwind CSS — crafted with bold visuals and a fun, flavorful layout to showcase products engagingly.
